

CURATED SIDE TABLE

Powder Coated Steel/Stainless Steel & Tempered Glass
32 L x 50 W x 36 H cm

12 x Rubber Edging

1.

Wear gloves when handling and assembling the table to avoid finger-prints on the untreated surface of the stainless steel version. Any adhesive residue from the protective film can be removed with white spirit, thinner, or nail polish remover.

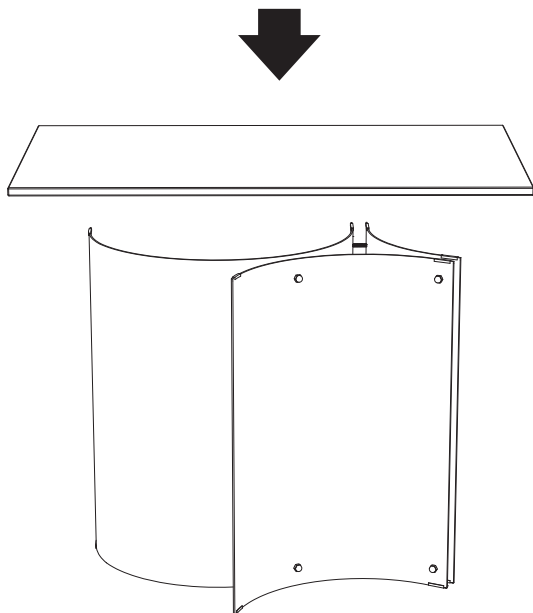

Place the rubber edging on each curved end at the top and bottom of the table to prevent scratches on the floor and the glass plate. Get help from another person when lifting the table to attach the rubber edging.

12 x Rubber Edging

2.

Get help from another person to place the glass plate centered on the metal frame. Make sure the distance to all edges is approximately equal, so the glass plate rests securely on the metal legs of the side table.

Warning: Do not sit, stand, or place excessive weight on the coffee table. The product is not designed to support body weight!
